BE ADVENTURE-PROOF

Certified B Corporation

Being B-Corp means adhering to the highest standards of social and environmental performance, transparency and accountability. We take a more rigorous approach to business decisions by focusing on people and the planet, in addition to profit.

Certified B Corporations are leaders of a global movement of people using business as a force for good and redefine success in business.

By voluntarily meeting higher standards of transparency, accountability, and performance, Certified B Corps are distinguishing themselves in a cluttered marketplace by offering a positive vision of a better way to do business.

WELCOME

Spinlock are a global leader in the manufacture of innovative life jackets, PFDs and accompanying equipment for the industrial maritime user. Lessons learnt in the most extreme yacht racing environments have led to the development of the DURO range and accessories. The Spinlock DURO life jacket range offers significant improvements in comfort, weight and fit of flotation wear and allows the user to focus on their work, confident that their lifejacket is ready for deployment if needed. Supporting you and your business is the dedicated service and support of Spinlock's global network.

DURO SOLAS

DURO SOLAS+

DURO

DURO+

ALTO BELT PACK

DURO **SOLAS** SOLAS APPROVED 275N TWIN CHAMBER LIFEJACKET

Our popular DURO SOLAS 275N lifejacket has been engineered for demanding use and conditions with a new heavy-duty, durable outer cover. An improved buckle system ensures easy donning, ultimate comfort and fit.

FEATURES

Includes heavy duty outer cover

Approval to latest 2010 SOLAS standard

275N (62 lbs) Buoyancy twin chamber lifejacket

Structured shape and body for ultimate comfort and agility

Single Belt adjustment with single crotch strap

Compatible with most fall-arrest harness models

Twin automatic inflation: UML Mk5, 2 x 60g CO2 cylinders

Unique bladder shape lifts and supports body higher when in water

Pylon™ SOLAS Approved life jacket light included

Designed to be worn for extended periods of time in conjunction with other kit

Heavy duty zip closure with protective covers

Floating 'Buddy Line'

Logo printing available

Window pocket for ID/asset tracking

OPTIONAL FITTING

- Lume-On™ Bladder Illumination Lights
- Sprayhood
- AIS MOB2 Beacon Unit
- Pro-Tech Protective Cover
- Chest Pack

CE Approved

ISO12402-2 275N Lifejacket

ISO 12402-6 Special application lifejackets

2010 SOLAS MSC200 (80)

Red Ensign - UK Merchant Shipping (Marine Equipment Regulations 2016)

Model	Description
DW-SLS	DURO SOLAS Twin Chamber 275N lifejacket
Optional Fitting	
DW-SHD/SLS-F	SOLAS 275N Sprayhood Fitted
DW-LMN-F	Lume-On™ Bladder Illumination Lights Fitted
DW-MOB/1-F	Ocean Signal MOB2 Beacon Unit Fitted

DURO SOLAS+ SOLAS APPROVED 275N TWIN CHAMBER LIFEJACKET WITH DECK HARNESS

The new DURO SOLAS+ features a full approved deck harness with rear attachment option. An improved buckle system ensures easy donning, ultimate comfort and fit.

FEATURES

Now includes heavy duty outer cover

Approval to latest 2010 SOLAS standard

275N (62 lbs) Buoyancy twin chamber lifejacket

Integrated Deck Harness

Structured shape and body for ultimate comfort and agility

Single Belt adjustment with single crotch strap

Compatible with most fall-arrest harness models

Soft loop deck harness for Safety Line attachment

Optional Rear Harness attachment point

Twin automatic inflation: UML Mk5, 2 x 60g CO2 cylinders

Unique bladder shape lifts and supports body higher when in water

Pylon™ SOLAS approved life jacket light included

Designed to be worn for extended periods of time in conjunction with other kit

Heavy duty zip closure with protective covers

Floating 'Buddy Line'

Logo printing available

Window pocket for ID/asset tracking

OPTIONAL FITTING

- Lume-On™ Bladder Illumination Lights
- Sprayhood
- Beacons see page 27-29
- Pro-Tech Protective Cover
- Chest Pack
- Rear Harness Attachment point

CE Approved

ISO12402-2 275N Lifejacket

ISO 12402-6 Special application lifejackets

PRO-TECH HEAVY DUTY PROTECTIVE COVER

Heavy duty coated polyester cover for Spinlock Lifejackets. For use in dirty work operations like painting / jet washing: provides a resistant barrier where contaminants such as paint, oils and chemicals can quickly damage a lifejacket.

TARGET USERS

Commercial marine users who need to prolong the life of a lifejacket

FEATURES

Heavy duty coated polyester cover for Spinlock Lifejackets

Provides some protection against sharps which can compromise lifejacket bladders

Designed to integrate with the Deckvest SOLAS and Deckvest DURO lifejackets

Offers a low cost solution to prolong lifejacket life

Model	Description
DW-TEC	Pro-Tech Heavy Duty Protective Cover

ALTO **PFD** WAIST-WORN, INFLATABLE BUOYANCY AID

The ALTO is a lightweight manual inflatable flotation device worn around the waist. The Spinlock ALTO won a King's Award for innovation in 2023.

FEATURES

Large 75N of emergency buoyancy

Compact and lightweight adjustable waist belt for a simple, close fit

Can be worn on front or back

Manually activated

Model	Description

ESSENTIALS PACK RANGE FOR ALL YOUR ESSENTIALS

CHEST PACK

DW-PCC

Smallest pack - suitable for personal essentials

Lightly padded with structured two way zip for easy access

Lanyard attachment and key clip for security

'Toggle Fits' all Deckvest Models in chest position, left hand side

Fits to any belt with secure double fold hook and loop attachment

Self-draining

BELT PACK

DW-PCB

Mid size pack - suitable for daily essentials

Lightly padded with structured two way zip for easy access

Lanyard attachment and key clip for security

Clear panel window

Fits to any belt with secure double fold hook and loop attachment

Self-draining

SIDE PACK

DW-PCS

Mid size pack - suitable for daily essentials

Secure water bottle holder - includes 380ml bottle

Lightly padded with structured two way zip for easy access

Lanyard attachment and key clip for security

Fits to any belt with secure double fold hook and loop attachment

Self-draining

TOOL PACK

DW-PCT

Heavy duty soft tool bucket for carrying large items aloft

Big enough for power tools, hammers and range of hand tools

Hard wearing PU coated fabric

3 large pockets

Internal pocket for small items

Lash points for tool security

ALTO THROW PACK/HOLDER

DW-PCT

Storage pouch for the ALTO with multiple attachment options – allowing ALTO to be accessible as needed if not being worn

Multiple adjustable fitting options allows the pocket to be mounted in various accessible locations

ALTO can be thrown to casualties in the water if needed

Easy open lid – allows quick access to the ALTO when needed

Heavy duty materials protect the ALTO from the environment

EXPLORER 100% WATERPROOF PACK RANGE

35-LITRE 100% WATERPROOF ROLL TOP BAG

Waterproof roll top backpack withmultiple ways to close the top opening

PVC free waterproof fabric

Side mesh water bottle pocket

External essentials zipped pocket

Multiple branding options to make custom products for teams, events or organisations

2-LITRE 100% WATERPROOF WAIST-WORN BAG

Versatile 100% waterproof belt storage pack with easy to use airtight and watertight zipper

Rated to IPX7 - fully waterproof up to 1 metre. Made with TRU ZIP waterproof and dustproof self-healing zipper

Ideal to use with beacons such as AIS MOB2, PLB and PLB3

Large font panel can be easily branded to make custom products for teams, events or organisations

VENTURE KIT BAG RANGE

Three gear bags, incredibly tough, and available in a range of practical sizes. Carry everything you need in our 27 litre backpack, 55 litre cabin size or 100 litre gear bag.

Multiple branding options to make custom products for teams, events or organisations.

Model	Description

OCEAN SIGNAL **PLB3** INTEGRATED AIS MOB

The PLB3 combines Automatic Identification System (AIS) functionality, Return Link Service (RLS) technology, and Near Field Communication (NFC) capabilities in one 406 MHz Personal Locator Beacon (PLB), the new Ocean Signal rescueME PLB3 represents a significant step forward in the evolution of PLB's.

Return Link Service (RLS Capable)

Integrated AIS Alert

Multi GNSS

406MHz & 121.5MHz Signals

Device is designed to be integrated and installed ready to use in your Deckvest lifejacket and assist in Man Overboard recovery.

Visible Light and IR Strobe

Available to purchase as a unit to retrofit within your current Deckvest lifejacket or supplied fitted integrated within a new Deckvest.

Model	Description
DW-PLB/3	Ocean Signal PLB3 AIS Personal Locator Beacon

AIS **MOB2 BEACON** INTEGRATED AIS MOB

New Class M Compliant, the Ocean Signal AIS MOB2 is compact and lightweight and integrates seamlessly with Spinlock lifejackets, ensuring automatic activation upon immersion in water.

Designed to be fully integrated into the lifejacket system

Slim, lightweight & streamlined,the most compact AIS Unit on the market – up to 30% smaller

AIS unit deploys automatically on lifejacket inflation

Integrated strobe light for maximum visibility

7 year battery life

24+ hour operational life

5 year warranty

Once activated your MOB1 will transmit an alert to all AIS receivers and AIS enabled plotters in the vicinity. The integrated GPS ensures precise location is sent to your vessel and any others that may be assisting

An additional feature of the MOB1 is its ability to activate the DSC alarm on your vessel's VHF

Model	Description
DW-MOB/2	Ocean Signal AIS MOB2 Beacon unit

SMRT **MOB BEACONS** COMMERCIAL-GRADE MSLD

The sMRT V300 is a commercial-grade Maritime Safety Locator Device (MSLD) featuring AIS, VHF DSC, and the 121.5 MHz emergency frequency for improved localised alerting, tracking, and recovery. With both manual and automatic water-activated activation, on immersion for 2 seconds, it enhances the speed and efficiency of MOB recovery. Choose sMRT V300 X2 for ATEX Approval.

VHF DSC Nearby vessels are automatically alerted about the man-overboard situation via DSC technology.

Dual GNSS Integrated GPS and Galileo receivers ensure rapid, global detection, enhancing accuracy in locating the individual.

121.5 MHz Features a low power homing signal to assist marine and aviation rescue efforts

AIS The live location of the individual overboard is continuously updated and displayed through AIS technology.

Class-M Compliance Compliant with European regulation ECC/DEC/(22)02 pertaining to MOB device usage, ensuring adherence to international standards.

Dual Activation Methods Can be activated manually or upon water immersion, ensuring functionality even if the user is incapacitated or unable to activate the device.

Water Activation Activates automatically when submerged in water for 2 seconds, ensuring a swift response in emergency situations.

Strobe Light Features a high-powered strobe light for enhanced visual identification during night-time, aiding rescue efforts in low-light conditions.

Coloured LEDs LEDs change colour based on the beacon's status, providing visual cues for device functionality and alerts.

Audible Alarm Features an audible alarm to aid in location and alert users of potential false activations, enhancing user awareness.

Choose sMRT V300 X2 for ATEX Approval.

Test Functionality Enables manual testing and app-based compatibility checks for power and functionality status, allowing users to verify device readiness.

Waterproof Design Designed to withstand water exposure, ensuring durability and reliable performance in marine environments.

LUME-ON™ LIFEJACKET BLADDER ILLUMINATION

FEATURES

2 flashing LED Lights (pair) illuminate the inflated lifejacket bladder to increase visibility and aid location

Water activated - waterproof (IP68)

Uses the inflated lifejacket bladder as diffuser to increase visibility

Compact design

Attaches and integrates only in lifejackets with separate bladder and cover construction. Sticks directly to underside of inflatable chamber

Retail packaged as a pair of self adhesive lights

Standard feature on Deckvest 6D and Vito

Multiple award winning product, including DAME design award 2015

Model	Description
DW-LMN	Lume-On™ - Lifejacket Bladder Illumination x 2

PYLON™ LIFEJACKET LIGHT FOR COMPLETE ALL-ROUND VISIBILITY

FEATURES

High visibility LED light

Compact, easily attachable lifejacket light

Raised 23cm antenna light significantly improves 360˚ visibility

Retrofits to other inflatable lifejackets with included hook and loop strap

Water activated with on/off switch

5 year shelf life

Approvals

Latest SOLAS MED and USCG Approvals
Marine Equipment Directive

DW-PY/L1	1 Single retail unit

UML PRO SENSOR ELITE INFLATOR FOR DURO & DURO+

Pro Sensor ELITE inflator

The Pro Sensor Elite® Automatic Inflator replaced the Pro Sensor® Automatic Inflator late in 2018: 13mm shorter and 4 grams lighter than the original Pro Sensor® Automatic Inflator. ProSensor Elite units have a Green/Red indicator for the cylinder and auto cartridge

All UML systems use a compressed paper capsule that dissolves in water releasing a spring to puncture the gas cylinder

UML Elite auto caps will not fit other UML units

UML MK5 AUTOMATIC INFLATOR INFLATOR FOR SOLAS & SOLAS+

UML Mk5 Inflator

The cap is designed so that only water flowing upwards through the unit will cause it to activate

Water, spray and rain running downwards will not cause activation

Benefits

Very reliable

Easy to check and re-arm

3 year replacement date printed on firing cap

UML Rearming kits are inexpensive and stocked by most marine stores

Easy to convert to ‘manual firing’ only

UPGRADES & SPARES FOR PROTECT

DW-PCB-F	Fitted - Side Pack
DW-LMN-F	Fitted - Lume-On™ Bladder Light x 2
DW-RHA-F	Fitted Rear Harness attachment SOLAS+ only

LIFEJACKET SERVICING

The DURO and SOLAS range is designed to be easily check and maintained by yourself or your business.
For routine monthly checks, follow our videos online for basic care and maintenance, along with our printed service guide. We recommend that you actively understand and maintain your own lifejackets which will help prolong its working life.

For annual servicing we have a global network of approved certified service centres and of course we offer servicing at our own production facility with a five day turnaround.

For those who would prefer to service their own lifejackets, we are also able to train and approve your own staff for annual servicing of your ISO12402 lifejackets.

It is recommended that you carry out a complete self-inspection annually, checking:

a. *The outer cover fabric: for cuts, tears, abrasion and damage caused by heat, chemicals etc.*

b. *The lifejacket bladder: check for leaks by inflating your lifejacket through the oral tube until firm and leave for 24hrs. Any loss of firmness indicates leakage and means it is unsafe. To check the oral valve, fully inflate the lifejacket and hold the tube under water. If bubbles appear, deflate and re-inflate to test. If a leak persists, do not use your lifejacket until it has been professionally serviced at your nearest service centre.*

c. *The components: remove and inspect all components for signs of damage or contamination. For example, ensure the CO2 cylinder is screwed in tight and the activation head also screwed tight.*

LOGO PRINTING

KEEP TRACK, LOOK SMART BY ADDING LOGOS OR NUMBERS

Printing is available on all Spinlock lifejackets, the products are printed in our factory in Cowes, UK. We use a laser cut logo system which adheres to the outer cover of the lifejacket.

Through experience we have found that branding lifejackets with a name or business logo helps make the product another part of the uniform; it also discourages theft. A number printed on the product also helps keep track of larger numbers of lifejackets; for servicing, during shift changes or when being shared by multiple people.

LOGO VECTOR FILE WITH PATH REQUIRED (AI, EPS, PDF)

WE CREATE VISUAL TO BE APPROVED

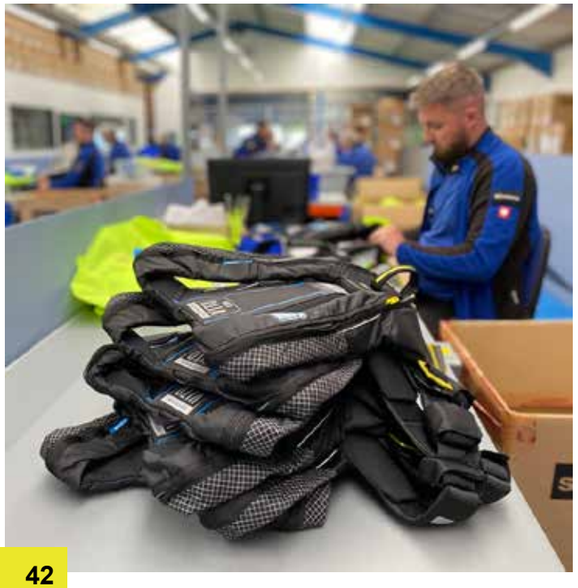

WE CREATE A LOGO FILE TO BE PRINTED IN-HOUSE BY SPINLOCK

PRODUCT PRINTED

BUILT AT **SPINLOCK**

Every lifejacket is built by Spinlock in Cowes, Isle of Wight. We cut, weld and test every inflatable bladder and assemble together with covers, cylinders and accessories to build your lifejacket. Every lifejacket we build follows a strict quality process during assembly with all components inspected along the way and tests undertaken before being shipped with its certificate of conformity and unique serial number.
